Alignment of New Clubs

2022-2023 Toastmaster Year

Every year clubs charter after our official alignment plan is approved at our Annual Council Business Meeting in the Spring.

It is the 2022-2023 District Director's responsibility to assign the clubs that charter after but before July 1st. The District Director must follow the same policies as did the original alignment. The updated report is then sent to Toastmasters International for their approval. The report was submitted and approved. The District Council then confirms the alignments at the next District Council meeting.

The following newly chartered clubs were assigned as follows:
